THE BREW EXPRESS 4 CUP MODEL—DESIGNED TO FIT IN YOUR LIFE

The revolutionary new design of the Brew Express blends performance, contemporary style and convenience into an easy-to-use, appliance that makes brewing coffee and hot beverages a pleasure instead of a burden. The Brew Express installs into the wall and directly to the water and power supply, so it integrates into any kitchen, bath, or wet bar. You will enjoy a fool-proof and convenient brewing experience, all without spilling a drop of water.

FEATURES

1 MORE COUNTER SPACE

The Brew Express is built-in-the-wall, leaving more room on countertops.

2 SELF FILLING - JUST ADD COFFEE

Self-fills on command and lays down an even spread of hot water over the ground coffee beans at the perfect temperature.

3 QUALITY COFFEE EVERY TIME

Designed to meet the Specialty Coffee Association of America standards for brewing the highest quality coffee, our Brew Trak™ system ensures consistent brewing temperature regardless of incoming water temperature or voltage variation.

4 ACCENT LIGHTING

Soft -blue ambient nightlight can be controlled by on/off switch.

5 ADJUSTABLE CUP SELECTOR

Let's you decide how much or how little coffee you want to brew. Select from a single mug or a full carafe.

6 PAUSE-N-BREW SENSOR

The infrared sensor makes the carafe safe to remove while brewing and will never over fill the brew basket.

7 ENERGY EFFICIENT

With the thermal carafe there's no need for a hot plate to keep the coffee warm, so you use less energy.

8 PROGRAMMABLE TIMER/CLOCK

Program your Brew Express to wake you up or brew coffee any time of day.

9 SAFE AND RELIABLE

Because it's built-in-the-wall we designed it to last for years of use.

FINISHES

Carafe and bezel are available in a variety of finishes and colors to match any décor.
