

Fresh Water Reverse Osmosis System

SZ2000 / SZ3000

Standard Features:

- Spot FREE Wash down!
- Fully equipped and customizable
- Compact modular design
- Very low power consumption
- Very low noise and vibration
- Greatly extends the life of wax and paint
- Excellent water for bathing, drinking, and ice!
- Installed directly into vessel, no equipment on dock
- Available in 2000 or 3000 gallons per day

What does Spot Zero do?

Spot Zero uses the same reverse osmosis principles as desalination water makers to efficiently and quietly reject about 98% of the total dissolved solids in any potable dock water supply any where in the world including viruses, cysts, bacteria as well as radioactive contaminants.

Technical Information:

	SZ2000	SZ3000
Gallons Per Hour	85	125
Amperage	7.5a @ 115v 4.0a @ 230v	7.5a @ 115v 4.0a @ 230v
Control Unit	18"W x 16"H x 9"D 50lbs	18"W x 16"H x 9"D 50lbs
Membranes	16.5" x 27.25" x 6"D 48lbs	16.5" x 47" x 6" D 96lbs
Pre Filter	17"W x 17"H x 10"D 42lbs	17"W x 17"H x 10"D 42lbs
